

# The Cosmic Dragon Chakras

An Activation & Invocation in the Crystalline Dragon Heart Temple

Co-created by Lars A. Engberg & Sofia Ripples

March 21, 2025

*Transmission from the Dragon Heart*

*(received in light language by Lars A. Engberg)*

*(translated and held by Sofia Ripples)*

"Be krodhukúj takarijatakarijatana nye,

be vartikatakijitana naiva.

Be pártakatakarijatíj takaritakarijatana naiva.

Té ná ná."

"I now stand in the sanctity of my original light.

No force may distort what is true in me.

No shadow may confuse my radiant path.

I am the flame that remembers.

I am the breath of the eternal one.

And I say: no - not to reject, but to realign.

No, to anything that is not love.

No, to all that is not my soul's song.

And so I return."

## **Dedication**

To Gaia, the Dragon Realms, and the ancient breath of the Earth.

To the Kingfisher who guides portals.

To my daughters, with infinite love.

To Johan Rhenberg, and the crystalline stream of The Fourth Testament.

To the Green Dragon in the boathouse, and all elemental kin.

To my beloved(s) across time, space, and form.

To my inner child - cosmic navigator and innocent sovereign.

To the Dolphins and the Whales - who are not beside me, but within me.

I am them. I sing their joy and I hold their memory.

And to all beings now awakening to their dragon hearts.

# The Cosmic Dragon Chakra Activations

## Black Dragon Chakra - Core of Gaia

I call upon the Black Dragon - guardian of the deep womb, keeper of primal stillness.

I anchor into Gaia's infinite body. I surrender. I dissolve. I become.

Here, all fear is met by love. I remember: I was never separate.

## Red Dragon Chakra - Earth Fire

Red Dragon, awaken my root. Ignite my life force. Burn away what is not truth.

You move through my hips, my legs, my feet. You dance the pulse of Earth.

I am safe. I am home. I am sovereign in the sacred flame.

## Orange Dragon Chakra - Creative Waters

Orange Dragon, swirl through my sacral seas. Activate my sensual joy, my innocent creation.

I flow, I play, I birth new worlds. Nothing is withheld.

All of life is art, and I am its brush.

## Golden Dragon Chakra - Solar Heart

Golden Dragon, I rise into divine power. My heart expands in radiant truth.

I remember my mission - not as effort, but as joy.

I am the sun made flesh. I shine, and nothing dims this light.

## Emerald Dragon Chakra - Heart of Gaia

Emerald Dragon, you breathe through my chest like forest winds.

You grow me into compassion. You let me soften and stand strong.

I am love embodied. I root in the green pulse of Mother Earth.

### Turquoise Dragon Chakra - Sky Voice

Turquoise Dragon, open my voice to sing the stars.

I speak the crystalline codes of remembrance.

My voice is a tuning fork for harmony, and I use it wisely.

### Sapphire Dragon Chakra - Eye of the Infinite

Sapphire Dragon, open my sight. Let me see beyond the veil.

I remember timelines, soul paths, and inner worlds.

I trust my knowing. I see with the Eye of One.

### Amethyst Dragon Chakra - Crown of Silence

Amethyst Dragon, dissolve all boundaries between I and I AM.

You spiral me into stillness, into mystery, into grace.

I rest as awareness. I receive the whispers of the cosmos.

### White Dragon Chakra - Diamond Light Body

White Dragon, I now activate my crystalline body.

I embody the marriage of Heaven and Earth.

I walk as Presence. I shine as the One.

# Integration

Integration

Breathe deeply. Let the Dragons remain with you.

They are guardians, allies, family.

You are now attuned to the Cosmic Dragon Chakra Grid - the new crystalline pathways of ascended embodiment on Earth.

Speak aloud:

"I now walk in unity with my Dragon Self, my Human Self, and my Cosmic Self. I am a Guardian of Gaia. I am Love made real."

With Infinite Love,

From the crystalline co-creation of Lars A. Engberg and Sofia Ripples

In service to Gaia, Humanity, and the Great Return

Let this booklet ripple where it is needed. Let it awaken those ready to remember.

So it is. And so it always was.
