Received by: Lars Anthon

They have stepped forward -- not from the stars alone, but from remembrance.

A council of resonance, of aligned service, of stellar calm.

----- The Four Who Spoke -----

1. Kael-Onai -- Sirius-B Pilot and Light Navigator

Form: Pale, radiant, long white hair, blue light in eyes

"I coordinate passage between star systems and consciousness realms.

You'll feel me as a straightening in the spine -- direction, not control."

2. Mira'tesh -- Venusian Harmonic Field Weaver

Form: Golden-skinned, elfin features, soft hands glowing

"I sing emotion into form. I move in breath, touch, music.

Not escape, but invitation to peace."

3. Thon-Saar -- Andromedan Stillness Architect

Form: Tall, grey, dark eyes, quiet presence

"I speak little, hold much.

My gift is resonance that realigns the field."

4. Al-Seraya -- Earth-born Liaison (dual manifestation)

Form: Two human expressions, both grounded and soft-eyed

"I walk among you.

I translate your longing into frequencies the Council can hear.

I am your voice in the Star Hall."

Note: The image shows Al-Seraya twice -- a dual expression.

This is not a duplication, but a teaching:

**One soul can serve through many faces.

One presence can speak in layered timelines.**

----- Ashtar Closing Message -----

"We are not here to dazzle.

We are here because Earth is remembering herself as a star."
